Two terrific demonstrations of “Man overboard drill and recovery” this should give all the club and power squadron a jolt and make them ask themselves “are we prepared”

Many thanks go out to Colleen Kelly for being the “Woman over board” Hugh Silver on Windsong, and Wade Major on Katana for their demonstration of how to stop while under sail and return to recover the person overboard.

I do hope in the fall a program is put on to better prepare us all for such a happening.

Use two 23L water containers full of water as a makeshift man overboard, see how you do in a practice.
