

# CRYC

*October - 2006* *Published September ----- June.*  
*Dedicated to bringing ENJOYMENT to all aspects of boating.*  
*Our web site <http://www.crcn.net/~yacht>*

**Don't forget, the  
AGM**

**November's  
meeting is set  
aside to form the  
next club  
executive.**

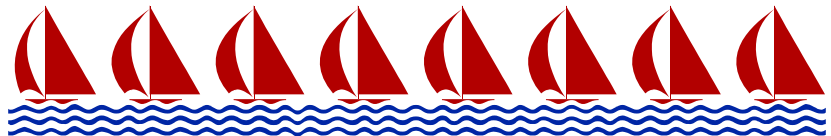

## The Commodore's Message

To begin I would like to thank all those who made donations in memory of Hubert Breukers to Marine Parks Forever or the Campbell River Yacht Club Foundation, Hubert will be missed by us all and our most earnest feelings of condolence and sympathy go to Tina and her family.  
The Annual General Meeting is the next event on our schedule to be held on November 16 at the Clubhouse. We have enough volunteers to fill the required positions on the Executive, so don't be afraid to show up and please bring your ideas on directions the club should pursue. The wine tasting competition will follow the meeting so remember to bring a bottle of your home made best or your favorite commercial brand to face the brown bag "Best in the Bag" competition.  
The Christmas party is set for the evening of December 10 at the Royal Coachman upstairs room. Tickets will be available at the next meeting and at Island MicroSystems or McElhanney Surveying.  
See you all at AGM.

*Did you have your shot?*

***Please Remember, You are requested to bring to the  
Non-denominational winter party, December 10<sup>th</sup>, an unwrapped  
child's gift to be donated to the Knights of Columbus For Christmas...***

***New Executive meeting to be announced...***

Using your head.....

1. Gentlemen- please be seated, men and boys included...sit down to use the head. Instruct crew and guests to sit or kneel when using the head. The head on a small boat is no place for men to practice their marksmanship....especially if the boat is in rough water, also type up instruction for using your head and point them out to all guests.

2. Lubricate your head pump every few days by putting a couple of tablespoons of vegetable oil into the almost empty toilet bowl and pumping it through the system which makes it easy to use and extends the life of the piston ring. Pump it through with the intake water turned off.
